## **EVENT SUMMARY**

Title of Event: Professional Ethics

Date: 14-01-2021

Resource Person: Mr. Nishanth

Participants: 113

Description:

Ethics, also known as moral philosophy, is related to what is morally good and bad and involves systematizing, defending, and recommending concepts of right and wrong conduct. Ethical conduct is important for businesses and individuals as it helps fulfil the basic human need of being fair, honest and ethical. Ethics also help organizations and professionals maintain a specific standard of accountability, commitment, and professionalism as they navigate challenges and various circumstances in their work practices. The talk was intended to provide learners with comprehensive knowledge about personal and professional ethical dilemmas and how to handle them efficiently.

## EVENT SUMMARY

Title of Event: Values in Life

Date: 12-12-2020

Resource Person: Dr. KVS Raj

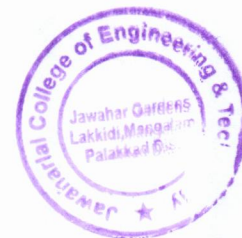

Participants: 84

Description:

In a world that is constantly evolving and taking new forms, it can be somewhat overwhelming trying to make sense of this thing called life. One of the things that rarely changes in this world though and what can provide a guiding light for one throughout the life is core values. Core values are principles or beliefs that one holds most dear and that are of central importance in one's life. When everything around us is changing, when the world is difficult to understand, and when we are riding up and down the emotion rollercoaster, our core values will always be there for us. This program was conducted to make students aware of the values in life.

**EVENT SUMMARY**

Title of Event: Universal Human value

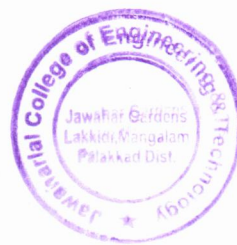

Date: 05-11-2020

Resource Person: Dr. KVS Raj

Participants: 117

Description:

Human Values can be understood by an appropriate process of self-discovery, because they are potentially there in each and every human being. There is already a natural acceptance for values in the human being. It is only that we have to discover them or become aware of them. Hence, to study human values, the process has to be such that it develops a process of self-exploration in the student. Taking every statement as a proposal, the student is able to investigate the reality on his own right.
